

## Robotics Lab

**Student Access Agreement**(please read before signing! Once form is complete, turn it in to your instructor. You will be issued a copy, which you must have with you anytime you are in the lab after hours)

Student's use of the robot lab space in Moakley 131 is subject to the following conditions:

1. Access to the robot lab is limited to computer science graduate and undergraduate students registered for CS 460 or CS570 only.
2. Students must present this form and their connect card to the Moakley open access lab staff to gain admittance to the lab.
3. Student must have their campus ID on them at all times while in the lab and present it to campus police if asked during routine checks of building and lab space.
- 4. Students may not allow non-registered or approved student access to the lab.**
5. No smoking, use of drugs or alcohol is allowed in the building. In addition all robot facilities are off limits to anyone under the influence of drugs, alcohol or any medication that influences normal functioning.
6. No children are allowed in the lab (see 1 and 4)
7. This lab is currently shared with a Windows administration continuing education class. Students in the robotics class may not boot up the computer using the continuing education drive nor do anything that would hinder the continuing education class from booting up their own drive.
8. The continuing education class uses the white board in the front of the class. If there is writing on the board do not erase it or write in that area. Erase whatever else you write on the board when you leave the lab.
9. Students are responsible for their own safety while in the lab and work at their own risk.
10. If your group breaks or loses a robotic component, your group will be required to pay for a replacement. Price sheets for replacement prices are available from the instructor.
11. Students must obey all college policies and exit the building when asked.
12. In case of emergency the campus police should be notified immediately. During all-campus emergency closings (such as "snow days") the building is closed to all students.
13. Clean up of your area after use is mandatory: Put your robot materials into their bin and place them in their designated storage areas. Turn off the computer and make sure that there are no remaining supplies on the computer table.

**Any violation of these guidelines will result in the immediate loss of all lab privileges.**
