Final Exam
Physics 459: Nonlinear Dynamics

Instructions for final exam, Physics 459

1. Complete the course survey on Blackboard. *Failure to complete the class survey will result in an incomplete grade assigned for the course.*

2. Prepare a 25 minute presentation on your assigned topic from the text. You are responsible for “teaching” the material to the class and should explain at least one example in your presentation. You may work either at the board or prepare a PowerPoint presentation.

You will email the Professor to schedule a meeting with the Professor late in the week of April 24 to discuss your section. To prepare for this meeting, you will have three concrete questions about section. *Failure to come to your scheduled meeting with prepared questions will lower your final exam grade by one letter grade.*

Mr. Pathak Section 9.2
Mr. Tanny Section 9.3
Mr. Bliss Sections 11.1 and 11.2
Mr. Buckley Section 11.3 and 11.4
